Setting The Mood: Spring Edition

The sun is rising earlier and setting later. Flowers are blooming, parks are slowly filling up with visitors, and something in the air feels like new beginnings. **Springtime must be here.**

At Porter, we're busy storing away our cozy hygge essentials to make space for art and decor that embodies the freshness and whimsy of the season.

Inspired by the brilliant creators on our Makers Program roster, the team and I have gathered a collection of impactful objects that give a nod to spring's natural forms. Through artistry and design, these pieces bring an organic lightness and brightness into any spa.

My name is Mia—I am Porter's Creative Experience Director. Celebrating culture and creativity is integral to the Porter experience. I want to invite you into the room with us and share an inside peek into the seasonal trends, inspiration, and decor that we love.

Make Room for Renewal After spring cleaning, comes spring dreaming! The following decor pieces showcase a natural look and feel and offer a beautiful way to infuse your space with springtime energy.

Things that Just Make Scents As the seasons change, so does our fragrance line-up. Enjoy an energy boost from our springtime candle pick, as well as accessories that turn lighting a candle into a joyful ritual.

Post-Hibernation Inspiration Bring people together with special pieces that celebrate sustainability and springtime. Surprise a friend with a gorgeous self-watering planter or host a sweet event with mindfully chosen glassware and containers.
